

Job Shadow Opportunity

About PSI

Professional Service Industries, Inc. (PSI), an Intertek company, is one of the largest engineering consulting firms in the United States, and one of Florida's most respected and trusted engineering firms providing services in Florida since 1975. With ten offices and over 300 employees in Florida, PSI offers environmental consulting, industrial hygiene/indoor environmental quality, geotechnical engineering, construction materials testing and engineering, nondestructive examination, and facilities and roof consulting services to various clients. Our environmental departments provide due diligence services to a number of private and municipal clients throughout the State, with an emphasis on commercial properties.

As a national engineering consulting firm, PSI was initially established in 1881 in Pennsylvania. PSI is consistently ranked by Engineering News Record magazine as one of the nation's largest consulting engineering firms in the US, with over 100 offices and approximately 2,000 employees located throughout the nation.

Job Shadow Description

This opportunity is for job shadowing where the individual would meet with one or more professionals in the environmental consulting department. The day would include discussion and observation throughout the typical work day of the professional, including an opportunity to visit at least one job site. This would likely be a one-day, 4 to 8 hour experience at the PSI building in Orlando.

Requirements

- Must be enrolled in a local college or university. Students of all levels are welcome to apply.
- Best suited for students interested in environmental, geotechnical, building envelope consulting or construction materials testing.
- Must be available during regular working hours for one weekday.
