

Job Shadow Opportunity

About CDS

Commercial Design Services (CDS) began in Tampa in 1988, developing from a design consulting process that included procurement of commercial furnishings for a variety of commercial spaces. Today, CDS has showrooms in Tampa, Orlando (Maitland), Tallahassee and Jacksonville.

CDS employs approximately 130 people supporting many areas throughout Florida, as well as national and international markets (depending on the client's requirements). CDS provides design support to design firms and clients on request, project management and installation services. CDS strives to clearly understand the client's objectives, develop a strategy to meet those requirements and continue to support the client as their needs change over time.

Job Shadow Description

CDS will provide two ½ day Job Shadow opportunities to a college student interested in learning about outfitting a commercial space. Date to be mutually agreeable to student and CDS.

Requirements

- Must be enrolled in a local college or university. Students of all levels are welcome to apply.
- Best suited for students interested in Commercial Interior Design.
- Must be available during regular working hours for one weekday
