

DELIVERING SOLUTIONS THAT MEET YOUR NEEDS.

Bernhard is here to assist you and your facility through COVID-19.

We realize this is a critical time for our communities and critical care facilities, and we are here to help. Bernhard is equipped to help you develop and execute a response to the COVID-19 pandemic.

Our staff will be personally reaching out to make sure you have the support you need during this challenging time.

Bernhard is at your service

Assessing Indoor Air Quality

We can assist with the installation of UV lights, filtration of MERV 13 or higher, perform coil cleanings, and assess the controls to ensure the Outdoor Air System is functional.

Assisting with Operations & Maintenance

We are positioned to provide qualified, trained technicians to run HVAC and plumbing systems in the interim if your employees are unavailable to work.

ASHRAE POSITION DOCUMENT ON AIRBORNE INFECTIOUS DISEASES

ashrae.org/technical-resources/resources

ASHRAE has developed a position document outlining implications for the design, installation, and operation of HVAC systems regarding airborne infectious diseases. [Click here to read the document.](#)

- Outside Air
- Filtration – MERV 13 or 15
- Ultraviolet Lights
- Coil Cleaning

Now is the time to move forward with capital projects and address deferred maintenance while facilities are closed to the public. Our computer dispatched technicians are responsive to all of your building operational and maintenance needs. **Together, we can develop solutions to your unique challenges.**
